

U.S. 52 PROJECT MAP

Winston-Salem, North Carolina

Sunday, March 18 — Saturday, March 24

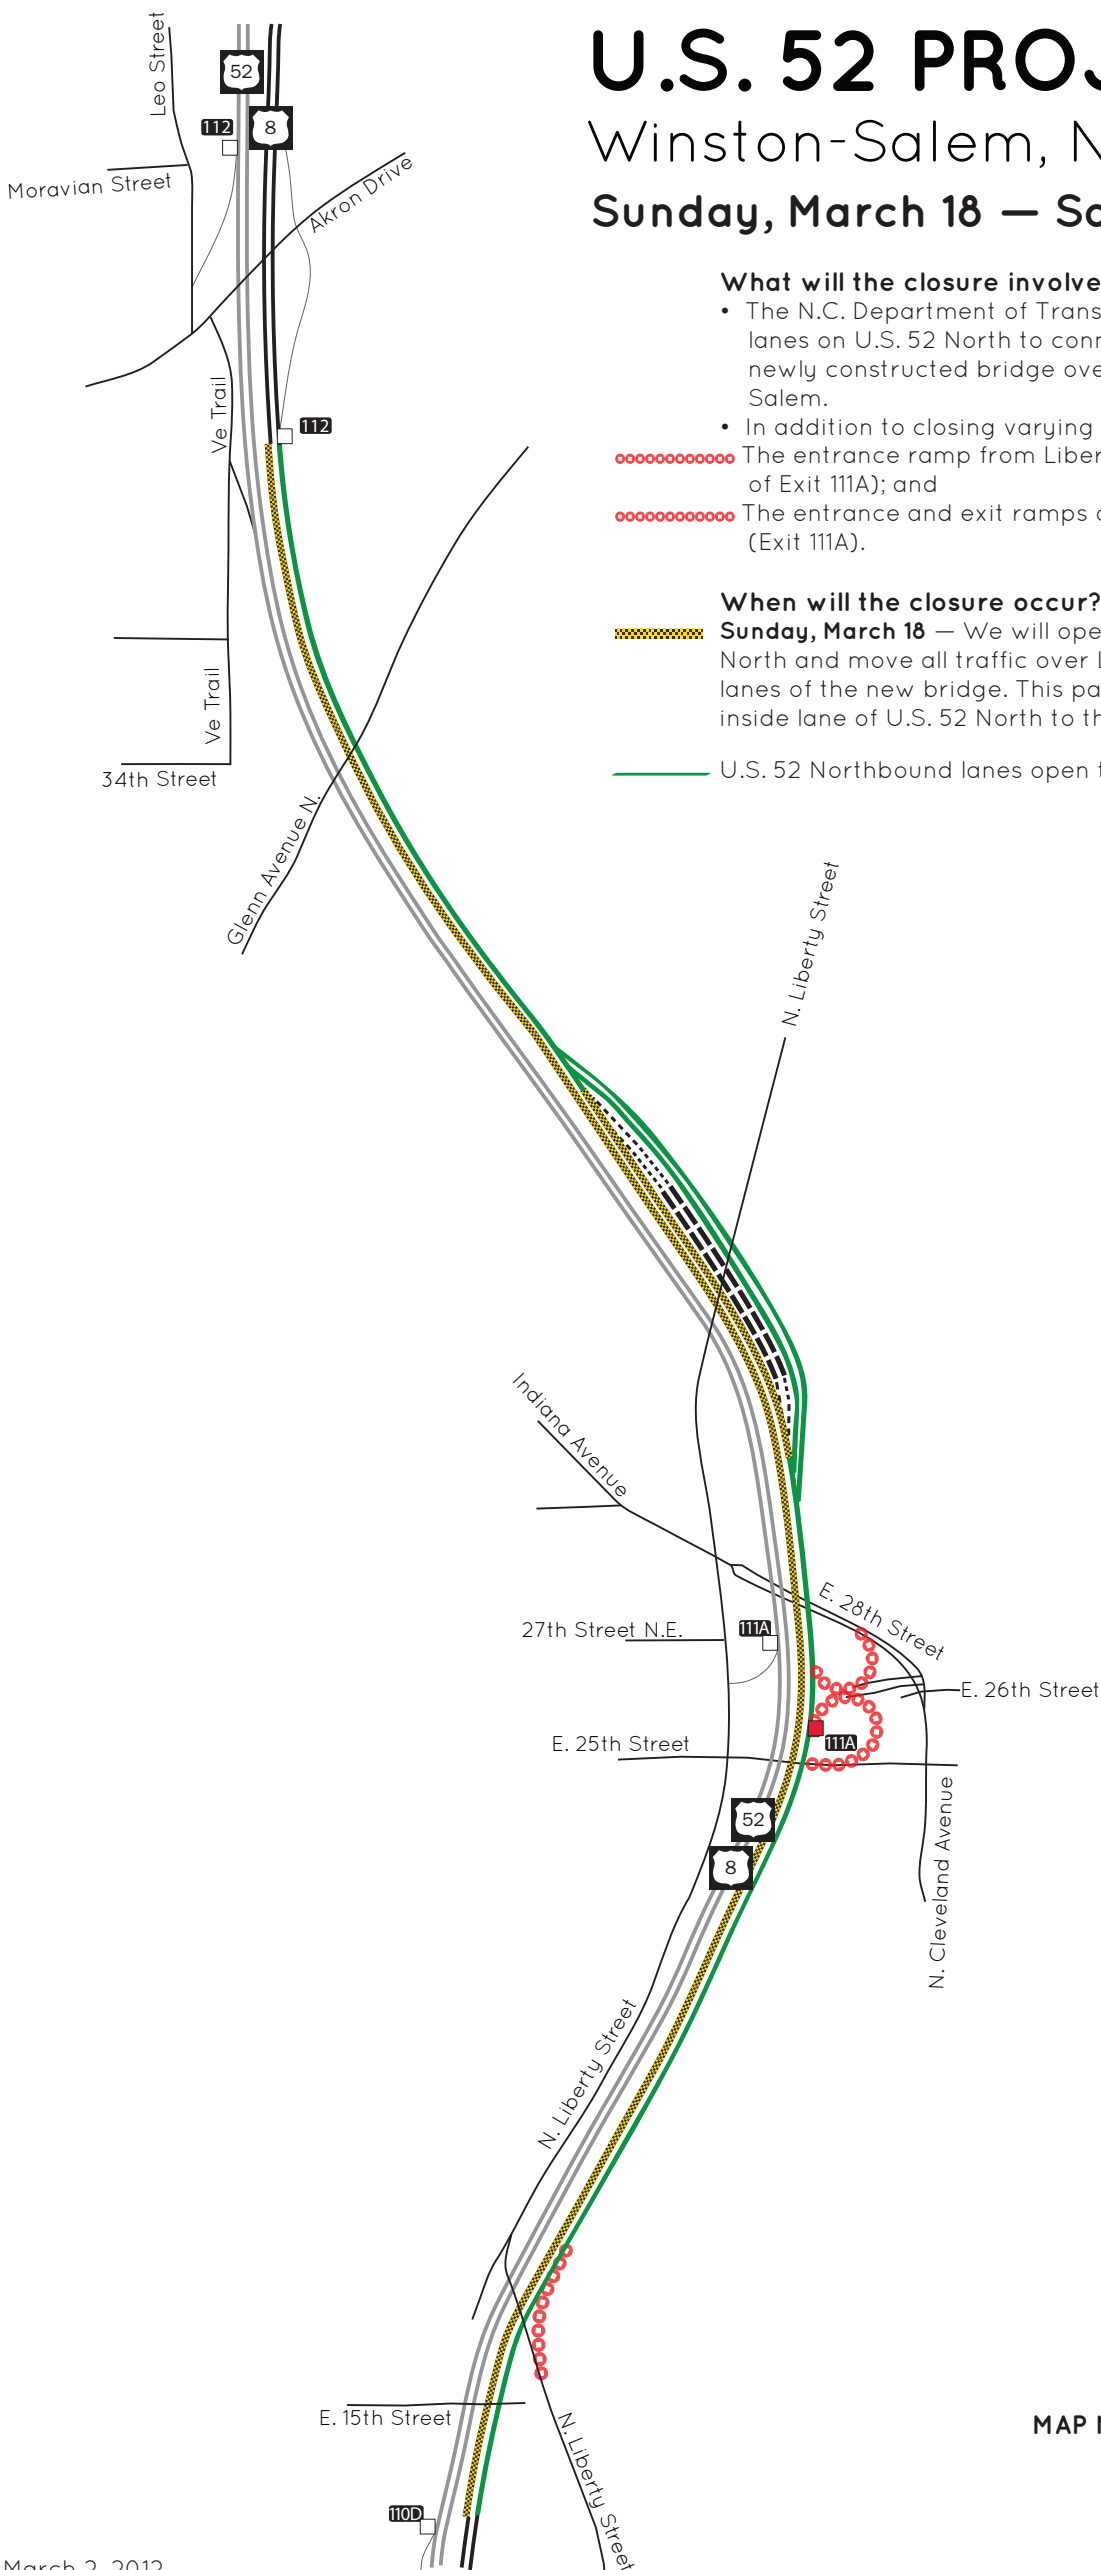

What will the closure involve?

- The N.C. Department of Transportation needs to close varying lanes on U.S. 52 North to connect the existing roadway to the newly constructed bridge over Liberty Street in Winston-Salem.
- In addition to closing varying lanes, NCDOT will also close:
 - The entrance ramp from Liberty Street to U.S. 52 North (south of Exit 111A); and
 - The entrance and exit ramps on U.S. 52 North at 25th Street (Exit 111A).

When will the closure occur?

- **Sunday, March 18** — We will open the outside lane of U.S. 52 North and move all traffic over Liberty Street onto the outside lanes of the new bridge. This pattern will allow us to connect the inside lane of U.S. 52 North to the inside lanes of the new bridge.

— U.S. 52 Northbound lanes open to traffic
